

# WalterLorenz® Surgical Assist Arm

**By supporting freedom, focus and control** for a **total ankle procedure** we are transforming patient care. We understand the important role that you have in helping patients restore mobility, alleviate pain and improve the quality of life.

**We want to be your trusted partner in Foot & Ankle Surgery** - delivering solutions to drive efficiency and help optimize patient outcomes.

## Additional support for a Total Ankle procedure: The Trabecular Metal™ Total Ankle System

Steady, consistent retraction provided by WalterLorenz Surgical Assist Arm is now available to support surgeons while using the Trabecular Metal Total Ankle System. Benefits include:

- Lateral Transfibular approach and anatomic articulation for motion restoration
- Proprietary alignment and bone preparation system enables simplified precision
- Advanced materials like Trabecular Metal and Prolong® Highly Cross Linked Polyethylene
- Bionic retraction providing an extra set of hands in the OR.
