

WalterLorenz® Surgical Assist Arm

By supporting freedom, focus and control for an Open Reduction and Internal Fixation procedure we are transforming patient care. We understand the important role that you have in helping patients restore mobility, alleviate pain and improve the quality of life.

We want to be your trusted partner in Trauma Surgery - delivering solutions to drive efficiency and help optimize patient outcomes.

Augmented support for a Pelvic Fixation procedure: The ZPS Pelvic System

Steady, consistent soft tissue retraction provided by Walter Lorenz is now available to support Trauma surgeries. Additional benefits include:

- Suitable for multiple trauma applications that require controlled tissue retraction, anatomical positioning and a steady holding force of instrumentation.
- Assists in internal fixation procedures.
